Dear Members, Colleagues and Friends,

It is a great pleasure to announce that the 15th European NF Meeting will be held in Istanbul, during September 6-9, 2012. The main theme will be “Neurofibromatosis: from childhood to adulthood”. The meeting will last three and half days and will consist of plenary lectures by invited speakers, oral and poster presentations, and sessions for lay groups. The scientific content will be prepared together with international and local organization committees with the aim of including the latest research findings, clinical implications, case discussions, and sessions for lay groups. Social activities including walking tours, sportive activities, city tours are planned.

Istanbul is a unique city that embraces two continents, Europe and Asia. Located at the crossroads of East and West, Istanbul offers easy air connections to hundreds of cities around the world and is one of the world’s most exciting conference destinations with its outstanding infrastructure, including modern accommodations with conference and exhibition venues. Istanbul is a charming and exciting city with unique natural and historical aspects. Set across two continents, Istanbul has cultures and traditions that blend east with west and Mediterranean with Anatolian.

Istanbul which is selected as the European capital of culture in 2010, has served as the capital of two mighty empires for sixteen centuries, Byzantine, and Ottoman.

We hope to see you in Istanbul in an exciting scientific and cultural setting.
